

JACKSON COUNTY REMC
Beat the Peak - Energy Management Agreement

I authorize Jackson County REMC or its agents (hereinafter referred to as REMC) to install and operate an energy management device(s) on the indicated equipment for the purpose of reducing the kilowatt demand during critical usage periods per the following terms and conditions:

Primary Electric Water Heater Yes No
 Primary Central Air Conditioner/Heat Pump Yes No

- 1) The member of record at this service location will receive any bill credits available from REMC for having the energy management device(s) connected and operational.
- 2) I agree to allow reasonable and timely access for REMC or its agents to inspect, repair, replace, or remove the energy management device.
- 3) I will protect the device(s) from loss or damage. If I depart the program, I will allow REMC to remove the device(s) in a timely manner.
- 4) If service is required on the connected equipment (i.e. electric water heater, central air, heat pump), the energy management device(s) will not be modified or disconnected. If the connected equipment is replaced, the device(s) will be reinstalled, and REMC will be notified for testing and verification.
- 5) REMC will assume responsibility of equipment repairs only if the failure is determined to be directly caused by the installation of the energy management device(s). All other equipment repairs will be the responsibility of the member.

JACKSON COUNTY REMC
Beat the Peak - Energy Management Participation Requirements

Residence

- Full-time residence
- KWH usage at least 500 per peak month to receive credits
- If rental, must have owner's signature
- Not billed under time-of-use rate option
- If installation would require mounting equipment or running wires in finished areas, would require specific homeowner approval.

Water Heater

- Must be the primary water heater
- Must be a standard electric water heater preferably 40 gallons or more in size
 - Water heaters less than 40 gallons in size will be considered on a case-by-case basis.
 - Heat pump water heaters and on-demand water heaters are not eligible
- Must be in good condition (not likely needing to be changed out in the near future)
- Must have good access

Central Air / Heat Pump Cooling Unit

- Must be the primary cooling unit
- Must be 2 tons or larger in size
 - Cooling units in single-wide mobile homes are not eligible
- Geothermal cooling systems are eligible
- Must be in good condition (not likely needing to be changed out in the near future)
- Must have good access
